

BALZER

VENERONI PUMP FROM BALZER

The Veneroni Pump from Balzer is a 6 inch vertical slurry pump engineered to handle the toughest slurry jobs. It is available in lengths ranging from 6 to 12 feet with other sizes available upon request. One key feature is the cast iron impeller housing which combines the actions of the rotor and the blades of the shaving disk to chop long fibers. The absence of rotating elements external to the pump body eliminates issues with clogging. The easy turn nozzle system allows you to rotate the nozzle 320 degrees horizontally even under full power. The vertical nozzle adjusts up to 90 degrees and the high pressure hose on the mixing nozzle prevents waste spraying while sustaining tremendous pressure. The heavy duty gearbox is available in 540 or 1000 RPM and comes with a full two year warranty. Also available is the Veneroni Pump with an electric motor which is ideal for hog, dairy and beef reception pits.

STANDARD FEATURES

Vertical Nozzle

Cast Iron Impeller

Hydraulic Tilt

Heavy Duty Gearbox

- Galvanized pump with stainless steel drive shaft in oil bath and wide seal system
- Vertical agitation (90 degrees) and hydraulic load control flapper valve
- Cast iron impeller housing comes with an adjustable pressure plate
- Heavy duty gearbox is available in 540 or 1000 RPM and comes with a two year warranty
- Two point trailer with orbit motor on winch with stainless steel cable for easy installation and removal comes standard
- Easy turn nozzle system allows 320 degree horizontal rotation via stainless steel chain drive
- Replaceable back wear plate
- Built-in impeller cutting system

AVAILABILITY

Pump Size	Length	Useable Length
6"	6'	78"
6"	8'	98"
6"	10'	118"
6"	13'	157"

ELECTRIC MOTOR MODELS

Electric motor models are ideal for hog, dairy or beef reception pits. in lengths ranging from 4 to 12 ft. Hot dipped galvanized construction or stainless steel is available. C-face electric motors eliminate belts and pulleys and connect directly to the drive line with a flex coupler.

AVAILABILITY

Pump Size	Length	Horsepower
3.25"	4', 6', 8', 10', 13'	5
5"	6', 8', 10', 13'	10-15
5"	6', 8', 10', 13'	20-40
