

BAUER

FOR A GREEN WORLD

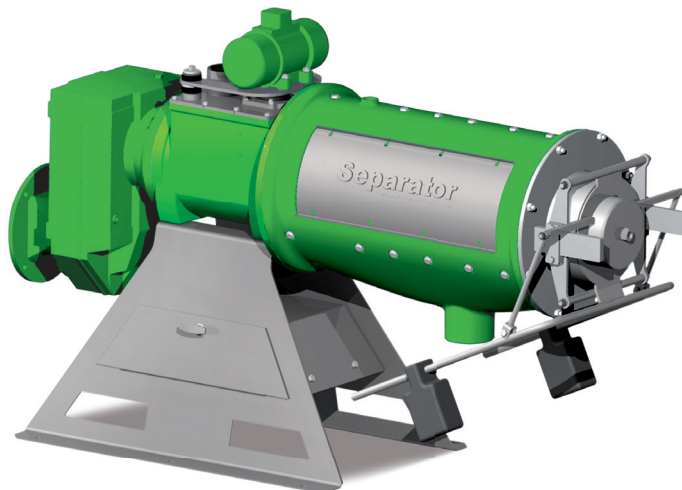

Separator GREEN BEDDING™

NEW

New Press Screw Separator from BAUER produces bedding material with a dry matter content of up to 40% in solids.

BAUER technology leads in the separation of liquid from solid nutrients.

Benefits

- Dry matter content up to 40% in solids when separating cattle slurry
- Economical production of high-quality bedding from the manure solids already on the farm. No need to buy additional bedding
- High dry matter content even at high throughput rates
- Low energy consumption
- Press screw and screen basket made of stainless steel
- Long life of the auger due to hard metal coating
- Housing made of cast iron
- Permanent cleaning of the screen by the auger
- Easy to maintain
- Gearbox with NEMA flange allows convenient and cost-effective sourcing of US motors up to 15 HP

Life time of the spare parts is depending on the consistency of the manure and the dry matter of the plug.

Economical production of bedding material!

Separator GREEN BEDDING™ 885

Capacity up to 3 cubic yards of bedding material per hour

Dry matter content up to 40%

Input power max. 15 HP

Screen size 1.0 mm
